MASTER PHOTOGRAPHER ZUNG OF THE PHOTOOZ

Zung is an international award-winning photographer and a member of the Master Photographers Association, UK (MPA). He is fondly known as “Ninja Photographer” for his fun, artistic, fast and creative photography style. Each year, he spends half of his time travelling around the world shooting for international clients. He is honoured to shoot for some of world’s most beautiful personalities including the Dalai Lama, Andrea Bocelli, Mel Gibson and Anthony Robbins. He is also the only known photographer with experience shooting weddings in 6 continents worldwide.

Zung attributes his success to his humble roots. Born into a fisherman family, he experienced his first breakthrough in 1996 after the passing of his sister to breast cancer. In 2002, he started his photography career with only \$50 in pocket and a brimful of passion and determination. He received his first international assignment back in 2005, shooting at The Peninsula, Hong Kong. Then on, he started shooting for Malaysian high society and royalties including the Prince of Perak and the 4th Prime Minister of Malaysia. In 2009, he was discovered by Anthony Robbins, American self-help author and motivational speaker, and has since become his personal photographer. In 2010, he journeyed on a dream shoot – an “Around the World” project, shooting 6 assignments, 6 cities, 6 continents in 6 weeks. He was awarded Photographer of the Year 2010 by Wedding & Portrait Photographer Malaysia (WPPM). When he is not travelling, Zung enjoys the warmth of home, the hot tropical weather and the culinary diversity of Malaysian food.
